PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 2+ years of experience building scalable, enterprise-grade web applications. Proven track record of developing multitenant CRM/ERP platforms, optimizing backend performance by up to 35%, and delivering secure, production-ready features across the full stack. Skilled in React.js, Node.js, Express.js, MongoDB, and REST API design, with strong focus on clean architecture, performance, and business impact.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, Redux, HTML5, CSS3, Responsive UI/UX
Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets
Database & Architecture: MongoDB, Mongoose, Aggregation Pipelines, Query Optimization, Multitenant Architecture, RBAC
Tools & DevOps: Git, GitHub, Docker, Postman, npm, Linux, Debugging, Performance Testing
AI: Generative AI, Prompt Engineering, LLM/AI API Integration, AI-assisted Development

PROFESSIONAL EXPERIENCE

MERN Stack Developer | **AllheartWeb** *Dec 2025 – Present*
IT Park, Chandigarh

- Developed and maintained a scalable multitenant CRM & ERP platform supporting multiple client organizations with secure tenant-level data separation.
- Built and enhanced enterprise modules covering Finance, Billing, Sales, Client Management, Live Chat, Helpdesk, Calendar, ETA, Drive, and Team Tracking.
- Optimized backend logic and MongoDB aggregation pipelines, **improving API response times by up to 35%**.
- Integrated automated email services, system logging, and analytics dashboards for monitoring user activity and business metrics.
- Developed reusable React.js and Redux patterns, reducing code duplication and accelerating frontend feature delivery.
- Collaborated across frontend, backend, database, and API layers to deliver complete, production-ready business features.

MERN Stack Developer | **KBS-IT Solutions** *Jun 2024 – Dec 2025*
Mohali

- Developed and integrated REST APIs using Node.js and Express.js, connecting them with React.js frontend applications.
- Implemented end-to-end business workflows and full-stack features across frontend, backend, and database layers.
- Investigated and resolved production issues, improving application stability and error handling.
- Collaborated with cross-functional teams to develop, test, debug, and release application features.
- Managed database operations and API integration using MongoDB and Mongoose.

PROJECTS

Enterprise Multitenant CRM Platform
Tech Stack: React.js, Redux, Node.js, Express.js, MongoDB, REST APIs

- Developed a full-stack enterprise CRM platform with multiple business modules and client-specific workflows.
- Implemented role-based access control (RBAC) and tenant-level data separation for secure multi-client operations.
- Built features including Live Chat, Billing, User Management, Client Management, and Helpdesk.
- Designed backend APIs and MongoDB aggregation pipelines for business operations and reporting.

Explorepedia — Social Media Platform
Tech Stack: React.js, Redux, Node.js, Express.js, MongoDB

- Developed a full-stack social media platform for creating and interacting with posts.
- Implemented post sharing, likes, comments, and JWT-based user authentication for secure access.
- Built REST APIs using Node.js and Express.js with MongoDB for data persistence.

EDUCATION

Master of Computer Applications (MCA) — Chandigarh University *Post Graduated 2024*
Bachelor of Computer Applications (BCA) — Magadh University *Graduated 2022*
